

**Software version 1.12 for the AXIS 700 Network Scan Server**

1.12 is an enhancement to the AXIS 700 Network Scan Server embedded software and replaces 1.11. All previously delivered units can be upgraded with the new software, which is available free of charge. All features of the 1.00, 1.10 and 1.11 software are retained. There is no need to upgrade to 1.12 unless any of the new features/functions are needed.

The main highlights are:

***Support for additional digital copiers***

Sharp:

- AR-405 (600 dpi digital copier, duplex)
- AR-S400 (600 dpi digital copier, duplex)

***Other enhancements***

- Paper sizes B4 JIS and B5 JIS added
- The connected scanner/digital copier is now detected even if it is started/turned on after the AXIS 700
